WISCONSIN ACADEMY OF  
FAMILY PHYSICIANS  
FOUNDATION  
STRONG FOUNDATION, HEALTHY FUTURE

## Our Goal:

**A \$1,000,000 legacy – a strong foundation that will assure a healthy future – for Wisconsin and Family Medicine.**

## Your Gift Lays the Foundation

Your gift to the the Future of Family Medicine Endowment is your commitment to the future of Family Medicine in Wisconsin.

Just as it takes many bricks to build a strong wall, many gifts are needed to build a strong Foundation. Gifts to the Future of Family Medicine Endowment have both an immediate impact on the Wisconsin Academy of Family Physicians as well as a long-term future impact because they support ongoing programs from the Rich Roberts Future Leader Award to Summer Extern Essay awards and help grow the fund to generate investment income which can be used for future of family medicine projects. Annual Endowment gifts support the Foundations purpose and help keep the specialty of Family Medicine alive and well in Wisconsin. So please, act today.

For the  
Future of  
Family  
Medicine

## Your Gift

Your gift to the Future of Family Medicine Endowment Fund strengthens the brickwork of our Foundation, by helping to enhance the quality of family health care in Wisconsin. Our Endowment Fund helps fund medical student and resident education, practice-based research and advocacy projects. The latter include strategies such as promoting the value and contribution of family physicians, improving the status of Family Medicine on our medical school campuses and addressing obesity and healthcare literacy. One-hundred percent of your contribution goes to the Endowment. Only investment income will be used annually for projects supported by the Academy.

The Wisconsin Academy of Family Physicians and its Foundation have provided opportunity to me throughout my career. I was a beneficiary of the summer student externship program after my first year of medical school. The Foundation has been instrumental in primary care research in my practice and others through its support of the Wisconsin Research and Education Network. Students and residents have been encouraged in kindling research skills and leadership development.

Wisconsin's Family Medicine environment has benefited from these many initiatives made possible only through the support of the Foundation. As a past president of the Foundation, I know of the work and importance involved in this ongoing philanthropy.

Our endowment fund preserves this future of Family Medicine and will insure that others will experience the same opportunities from which we have had benefit. I encourage you to help the endowment fund grow through your generosity today and on a yearly basis. It is worthy of consideration in your estate planning. I hope you will join me in giving the specialty of Family Medicine your full support by way of a contribution."

Leon Radant, MD  
Past WAFP-Foundation President
