

**SCOTT WALKER**  
**OFFICE OF THE GOVERNOR**  
**STATE OF WISCONSIN**

P.O. Box 7863  
MADISON, WI 53707

July 2017

Dear Future Physicians:

The great State of Wisconsin is committed to ensuring that our citizens continue to have access to high quality, cost-effective primary care. We support and embrace this goal and that is why we encourage you to begin your residency training here and hopefully decide to practice in the Badger State.

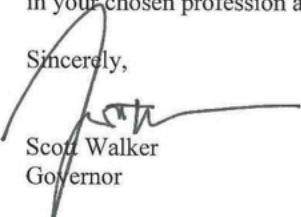

The enclosed information includes residency program descriptions and additional material describing how to fund your visits to Wisconsin residency programs. The State of Wisconsin is home to two medical school departments of family medicine, and 16 family medicine residency programs located throughout the state. The programs offer more than 90 residency slots annually.

We are also proud to say Wisconsin has a great opportunity to offer you upon completion of your residency training. Our innovative Primary Care Shortage Grant Program (Act 128) provides \$20,000 a year for up to three years for family physicians who complete residency training in Wisconsin and agree to practice in an underserved area of the state.

In addition, Wisconsin offers a superb quality of life. From our diverse communities to our rich culture and stunning natural attractions, our state is second to none. Wisconsin also offers affordable housing, many recreational and cultural activities, and one of the nation's finest educational systems.

Thank you for taking the time to consider our state for your medical career. We wish you success in your chosen profession and hope you will select Wisconsin as your future home.

Sincerely,

Scott Walker  
Governor
